Seeds of Spring

Plants act as highly effective air cleaners, absorbing CO2 and other air pollutants, while releasing clean oxygen.

GROWING GREEN:

In today's day and age where pesticides and fertilizers are overused consider the comfort you will have when you know exactly what has touched your fruits and vegetables! Homegrown food is highly sustainable and rewarding.

"Trashed" Movie Screening:

March 23, 2023

Olscamp 221 | 6 PM

Join us to watch Trashed! An hour-long documentary that will transform how you think about waste. Short discussion after the movie. Part of the Campus Race to Zero Waste! #CR2ZW
